

Scan all items at once to add to roulation

Check linen quality

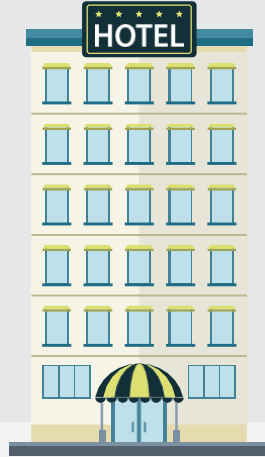

Remove item(s) from roulation

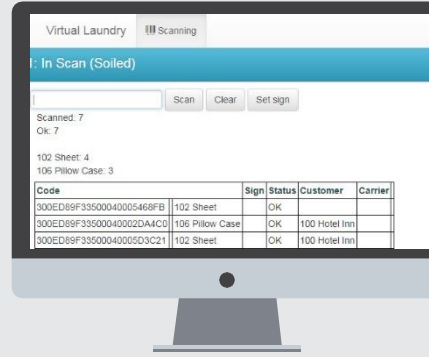

Scans all items on a cart

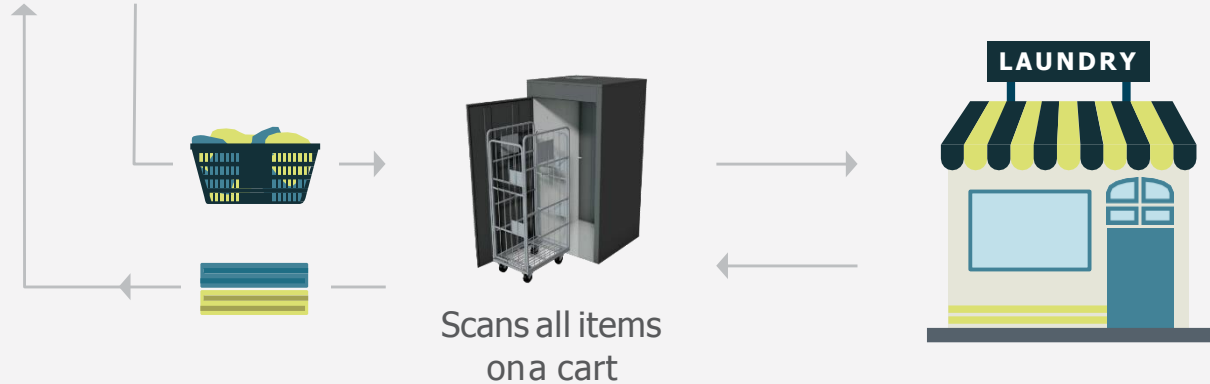

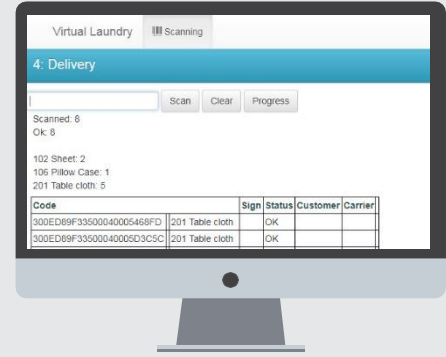

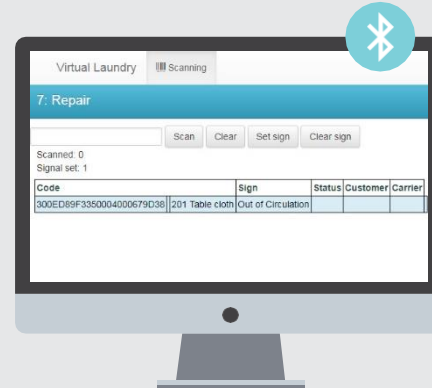

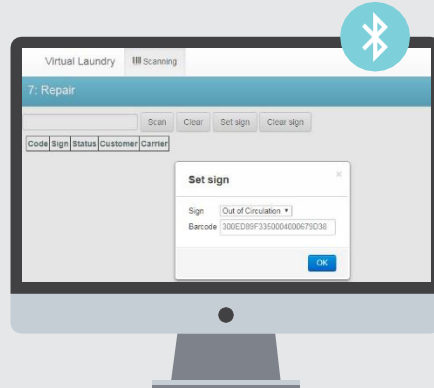

Soiled linen scan

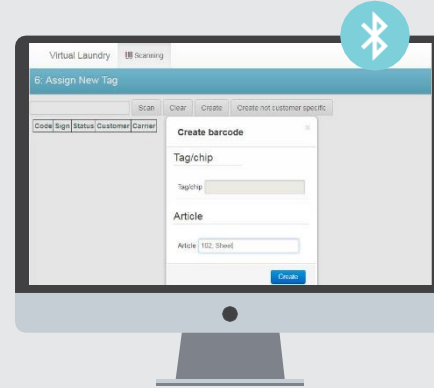

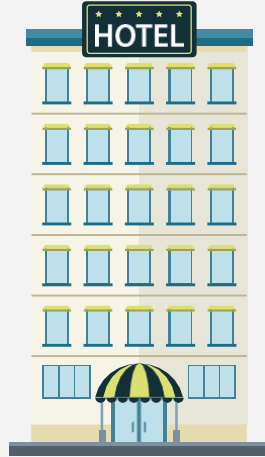

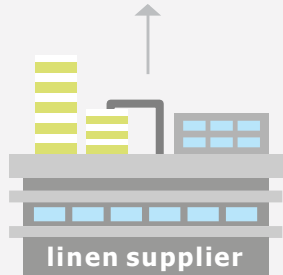

Clean linen scan

Scan all items at once to add to rotation

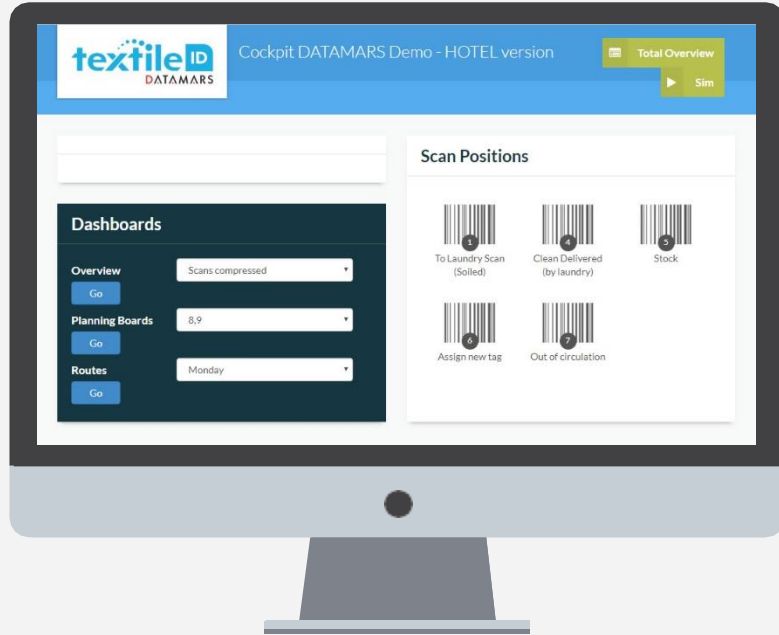

First choose a product, now you can start scanning all linen at once. Because of the RFID tags you won't have to unpack the products

Scanning the new linen with the handscanner will automatically add them to Virtual Laundry

Follow the linen realtime, at anytime
